

IN THE SPECIFICATION:

B1
[0040] The clamping bolts 7A, 7B of the clamping region engage through the slots in the rails 4A, 4B, as a result of which rear guidance of the clamping bolts 7A, 7B is guaranteed. In their front region, facing the vehicle occupants, the rails 4A, 4B are guided in a box section 13, which is connected to the front holder 28 8.
